UZIN CX 30 gray/white Powerflex Project Plus Advanced S1 Thinset Mortar

To whom it may concern

We hereby confirm, that during the production process of our product **UZIN CX 30 gray/white** neither formaldehyde nor asbestos, lindane, chlorinated biphenyls, pentachlorophenol or other toxic substances are used. Furthermore we confirm that **UZIN CX 30 gray/white** is free from organic solvents according the definition of BAAQMD Regulation 8, Rule 51-226. With a VOC-content of **0.0 g/L UZIN CX 30 gray/white** contributes to LEED credits in section EQ 4.1 (indoor environmental quality).

UZIN CX 30 gray/white is a solvent-free, cement-based levelling compound for interior use. Cement produces strong alkaline on reaction with water and humidity (HIMS-rating: H-1, F-0, R-0), therefore direct contact with skin and eyes should be avoided. To reduce the risk of skin irritation the use of protective gloves and a protecting cream is recommended.

Recommendation concerning respirable crystalline silica (quartz)

Though the product itself does not contain respirable crystalline silica, respirable silica may be generated from working procedures such as grinding e.g. In general, inhalation of silica dust should be avoided. Therefore, for your own safety wear a suitable NIOSH-approved respirator in all occasions when handling of the product generates dust.

Proposition 65 (California): This product contains crystalline silica (quartz) which is classified as a substance known to the State of California to be a carcinogen.

The information given above is only relevant for the craftsman for personal protection during processing of the product. The fully set and cured product is not irritating to skin and presents no physiological or ecological risk.

Furthermore **UZIN CX 30 gray/white** meets the requirements of "very low emission" products (EMICODE EC 1^{PLUS}) according to the criteria of the GEV (Association for the Control of Emissions in Products for Flooring Installation, Düsseldorf, Germany). Products labeled with EMICODE EC 1^{PLUS} have passed a specific test-chamber measurement and emit less than 60 micrograms of VOC per m³ after 28 days. EC 1^{PLUS}-products thus stand for modern, solvent free and extremely low emission flooring installation materials. In respect of Indoor Air Quality, they provide the most ecological method for state-of-the-art flooring installation.

For further information please also observe the product information and material safety data sheet of **UZIN CX 30 gray/white**. For technical information as well as MSDS please refer to our website www.uzin-utz.com.

We hope this information supplies you with the support you require. In case of further questions please do not hesitate to contact us.

Sincerely

UZIN UTZ AG
